#### **16.** Instant Match

Players must activate Instant Match by either;

- selecting the lightning symbol above the Main Menu or
- selecting Match > Instant Match within the Main Menu. See red highlights in image below.

- **17.** Players are also able to organize and create matches themselves by finding each other on Discord. There are no limits to how many different opponents a player can compete against.
- 18. Matches are only to be created in the 'Instant Match' feature from the main menu. 'Custom matches' are NOT a valid way to compete and will not earn points for the Playoffs.
- **19.** Tournament participants are responsible for scheduling matches at a time convenient for both players.
- **20.** A strong internet connection is required. A maximum required ping speed of 250 is recommended. If it is any slower it is suggested to find a better connection to avoid lag.

# General Rules of [VR] Tennis

- **21.** A ball must land within bounds for play to continue; if a player hits the ball outside of bounds, this results in the loss of the point for them.
- 22. Players/teams cannot carry the ball or catch it with the racquet.
- 23. Players cannot hit the ball twice.
- **24.** Players must wait until the ball passes the net before they can return it.
- **25.** A player that does not return a live ball before it bounces twice loses the point.
- **26.** Any ball that bounces on the lines of boundary are considered within boundaries of play.
- **27.** A serve must bounce first before the receiving player can return it.

# 'Instant Match Play' - 10-point tiebreak sets

- **28.** To be the winner of a match, you must be the first player to win 10 points, with an advantage of two or more points.
- **29.** Correct scoring and positioning of a 10-point match tiebreaker is automated in Tennis Esports Custom Match play
- **30.** The ball must be hit by the virtual racket, travel over the net and land within the singles bounds for play to continue; if a player hits the ball outside of bounds, this results in the loss of the point for them.
- **31.** Each player has a maximum of one bounce after the ball has been hit by their opponent to return the ball over the net and within the boundaries of the court. When a player then fails to return the ball into the correct court, the opponent wins a point.
- **32.** The Application will automatically stop the point once an action has incurred a point loss. Therefore, players should continue to play until the point has been concluded by the Application.

**33.** For every new point, each player receives 2 attempts to 'serve' the ball over the net and across the court into the square boundaries highlighted in the pictures below. If a player misses two consecutive serves, they lose the point.

Zones to serve on Deuce court

Zones to serve on Ad court

- **34.** Tie-Break Serving Order To start at a set at 0-0, Player A will start only one point by serving, on the deuce side. After the first point each player will then start two consecutive points with serving on the deuce and ad side. The serving order for a tie-break is as follows:
  - Point 1: Player A, Deuce side
  - Point 2: Player B, Ad side
  - Point 3: Player B, Deuce side
  - Point 4: Player A, Ad side
  - Point 5: Player A, Deuce side
  - Point 6: Player B, Ad side
  - Point 7: Player B, Deuce side
  - Point 8: Player A, Ad side
  - Point 9: Player A, Deuce side
  - · ...

- **35.** First Service The server is allowed two chances to land their ball into the service box. The first attempt is known as the first service. Failing the first service leads to the second service.
- **36.** Second Service The second attempt is known as the second service. Failing the second service results in the loss of the point.

 using the Meta Quest 2 Headset and controller with the Tennis Esports App, players will have 1x virtual tennis racquet in one hand. Players will select their preferred hand inside the Application upon login or within settings.

The virtual tennis racquet consists of a handle, a frame, and strings that are bound in a crisscross weaving pattern, simulating typical size and dimensions of traditional, real tennis racquets; A racquet's frame typically should not exceed 32 inches in length, with a handle no longer than 12.5 inches in width, and a surface no more than 15.5 inches in overall length or 11.5 inches in width.

### **74.** Virtual Reality Ball –

 The tennis ball is yellow in color simulating typical size and dimensions of traditional, real tennis balls with measurements of 2-1/2 to 2-5/8 inches in diameter and weighing anywhere from 2 to 2-1/16 ounces. The elasticity of the ball and the uniform outer surface are also simulated. See more in point 68. Players must disable the ball bounce visualization.

## **75.** Virtual Reality tennis physics

 Are produced by Tennis Esports VR Application in collaboration with the technical university of Vienna to create an immersive user experience when striking a ball in VR.

The team created a collision model that is capable of real time predictions of the ball velocity and ball spin after ground and racket impact; identifying relevant effects and associated parameters influencing the impact behavior.

During an impact between a tennis ball and a racket, several effects occur such as strong deformations of the ball, vibrations of the racket and overspin effet to name just a few of them. All these particular processes make the impact a quite complex dynamic programme.

With our mathematical model, the Tennis Esports Application simulates different ball types, rackets, and environments seamlessly in real-time multiplayer tennis matches in VR, even if players are on opposite sides of the globe.
